18	Liquid Norway vs. Massive White Nile	Amateur	Documentary	Ben Jung	12	The reason for the battle between the Nile and Norway is to show what makes each of them enyoable. Kayaking on the Nile is amazing. Its not all about the kayaking there. You have nice weather, friendly locals and only enough clothes to protect your skin from the sun. In Norway, you wear tons of gear to stay warm, but you don't risk malaria and for sure you wont die after a snakebite in Norway. In Norway you are freezing your balls or you get rain all day long. Sunburn and a cold cheap beer is waiting for you next to the camp in Uganda...it will be always a compromise.

20	Into Perpetual Ice	Pro	General	Olaf Obsammer	21	Five international kayakers travel to the whitewaters of Greenland in search of white gold.
21	Dipper Creek	Pro	General	Bryan Smith	2.75	Over the past five years The Range Life developed a reputation for exploring some of BC's finest creeks. They blogged, took amazing photos and put out a few video clips here and there. In the late summer of 2008 they unveiled a multi-year project they had been working on called Dipper Creek. First sighted from the air on a scouting trip of the upper Squamish Drainage, Dipper proved to be a diamond in the rough. It took a couple years of endless bushwacking to get enough looks into this gorge to even consider running it. At over 500 feet per mile, Dipper drops into gorges that have no way out but down. The first descent was terrifying. This short captures some of the fun and excitement of TRL's exploration.
22	Riding the Moose	Pro	Documentary	Justine Curgenvan	25	Canoeing legends Mark Scriver, Paul Mason and Andrew Westwood run grade 5 waterfalls and slides on the famous Moose river. Plenty of thrills, spills, and near misses and an insight into these 3 paddlers.

24	Soft Power Health	Pro	Documentary	Polly Green	19.5	Following up the film <i>Nomads</i> , Polly Green documents the work of Dr. Jessie Stone, a whitewater kayaker who began the organization Soft Power Health in rural Uganda.
25	The Call of the River	Pro	Documentary	Kent Ford	78.25	Whitewater's history has as many twists and turns as the canyons its pioneers explored. Its story is a collage of unexpected influences, from World War II's impact on boat materials to world champions defecting from communist regimes. Curiosity, ingenuity and outright audacity thrived, from building boats in friends' basements to bribing damkeepers to release water, all in pursuit of the river experience. For the first time ever, The Call of the River, produced by award-winning videographer and former world champion Kent Ford, brings these tales and more together on film.
